

## **Little One**

Words and music: R. Schneider

*Living a life turned upside down (now that a little one's come)  
No sleep at night, running all day long (now that a little one's come)  
A new heart beats for the world to hear (a little baby girl)  
There's a sense of wonder and a touch of fear (now that a little one's come)  
And she's come, . . . Oh Lord, she's come*

*What will the eyes of this child see (the little one that's come)  
The road ahead is worryin' me (for the little one that's come)  
Can anyone still hope to find (in this crazy world)  
A little bit of love and peace of mind (for the little one that's come)  
And she's come, . . . Oh Lord, she's come*

### **Chorus**

*My dear little girl, I'll help you make it on through  
A great big world is waiting for you, take my hand  
I'll keep you safe and warm, dry your tears whenever they fall  
And give you all the love in my heart, every day*

*But it may be wrong to be worryin' so, (for the little one that's come)  
With love and time this child will grow (this little one that's come)  
And hardships life is sure to bring (life goes up and down)  
But without the winter there can be no spring (for the little one that comes)  
And she's come, . . . Oh Lord, she's come*

Chorus x2
