

Next to Me

Words and Music: R. Schneider

*Never grow old, do as much as you can
Make every day count, while you're a young man
Stay true to your dreams, so they don't slip away
If you have the will, there is always a way
Remember my words . . . long after I'm gone*

*That which you seek, will change over time
All that is gold, does not always shine
You'll make some mistakes, just take 'em in stride
To never have failed, is to never have tried
Remember my words. . . long after I am gone*

Chorus

*It feels just like yesterday, I was by her side
I'd listen, to her say these words to me
Though I am much older now, and she's no longer here
I still see her standing next to me*

*Your life is a field, that you water and hoe
And over the years, you will reap what you sow
A little hard work and a little sunshine
Some love in your heart, and you will do fine*

*And if you grow old, as old as I am,
Make every day count, and be a good man.
. . . Remember these words, when I'm gone*

Chorus
