

Shadow of a man

Words and music: Bruce C.W. McGee

*The past is gone and we both know it
So why are you here still trying to change it
Look at you now. Digging up bones.
Hurting your heart. For shadows in the dark.*

Chorus

*Shadow of a man
Looking out for you and me
Baby that's all I am
This thing, this thing called a shadow of a man
Baby that's all I am
This thing, this thing called a shadow of a man*

*Baby that's all I am
This thing, this thing called a shadow of a man
Baby that's all I am
This thing, this thing called a shadow of a man*

*So here we are and we're not talking
Falling down, as we're walking
Somewhere inside. Let go of your pride.
Back to the start. With shadows in the dark.*

Chorus
